Fountain from Atlantis,

Working with the old cleansing energies which have been used about 12.000 years ago in the temples of Atlantis for cleaning and regeneration people from magnetic illness and disturbances.

Just stand in front of it and put your hands slowly inside the circle, go through the horizontal level and keep your hands some time inside. You will feel strong changes, floating energies going through your arms, your body, -

If people have bad influences in their energy they will get cleaned. If someone is under influence of black magic, as long as you are in contact with this energy fountain, nobody can reach you with his mind! The bad energy will get reflected on ist producer. Very good effect to get out of bad vibrations.

Chakraman,

Very powerfull and interesting instrument for learning and for regulation the energy in the different chakras of somebody.

Just make exercises like yoga and meditation, then place one person in front of it, the arms open into the direction of the Chakraman, fell the floating energies bwtween you and the object!

And then second person sitting aside will moove the basic tube with the rock cristall ball from the position at the end (= symbole of your shushumna) to the position over the rose rock ball. Feel the powerfull floating and regulation of your energies! Very helpfull to teachers for energy healing.

I have sold up to now only about 10 Chakraman, but all to European energy teachers,

See pictures of the last piece sold to a French Chi Gong Master on his castle "Chateau Beaumont".

This is also a deity communicator,
my big swingung blue trumpet!

One time some years ago I got into close channeling contact to high devine forces, it was not from Horus, but it was reminding me to old Indian times, they gave me detailed pictures and informations how to realize this instrument. It was really difficult. It took me several days of meditation to get clear with all details, and I am shure I will not remake it, there will be always only one such deity instrument!

Just stand behind, keep your hand over the balls of red coral or beside the 2 plates of acryl left and right side, then direct this instrument to SW, and feel how the energy starts floating through your mind and body! Some people who have used it got rid of energy problems, got rid of disturbances in their 2.nd chakra, better flow of energy for sex and getting children.

One woman was told by the doctor "You will never have children!" - she used first the fountain from Atlantis and here aura energy changed completely, she was cleande. Then she went to this deity instrument and was for a long time in contact with divine forces. After this she was very happy and she said, my whole body and mainly my uterus is totally warmed up! 4 weeks later she was pregnant.

Question of getting a child or not is offer a question of good or wrong energy, not at first of biological body.

I am shure, most of my instruments are in contact with divine forces, with personal devas. This is what gives them the power of freedom and of natural healing! It is really great!

The little blue trumpet with 3 corail cristall balls is an instrument based on the big trumpet, but it does not have the power of the big one. It is more an instrument for searching energies like a rod.

The golden caps of energypyramid C can be used separately for exemple on an office table to calm down the energy in a room to be relaxed and concentrated at once. Very attractive.

Artificial plant with flowers, made by copper tubes, copper plates and crystals. They look like flowers and they are working like flowers. They pick up energy from the room they are in and transform it, and the changed energy comes out of the rods. It's a simple transforming instrument. 2 feet high

2. This **special cristall** looks like the **entrance of a temple** and while meditating on it you can go back into the powers of mother earth where it came from. Very ancient, earthborn energy, very quite, calming, giving good power to nervous people. Can be placed everywhere, but best in a house with an energy pyramid. About 1 x 1 feet (bit more)

3. My little **“Ball-tree”** with cristall balls. This is a very interesting instrument for teaching about energy, Feng Shui, colours, and crystals.

Normal position: There are 3 levels with each one 3 similar balls, you can exchange all balls. But if you want to get good energy, you need to place 3 black balls at the basic level, 3 red ones at the middle level, and 3 white ones at the top level. If you mix it up, you get strange energies. If you put more and more dark colours up and light colours down, you will get strange or bad energies, no good feelings.

So we can show students, that every kind of stone, its colour, its relation to each other is important to have good energy in a room or building! While teaching this way, people learn to see and to feel all energies around them and they feel what has to be changed. I like it very much!

It will be delivered with 9 crystal balls, but you can order it with more sets of each set 3 balls from other kind of stones to get more experiences. 2,5 feet high. Incl. Acrylset

Cosmic communicator - the biggest one I have ever made. Some years ago I got into contact with extraterrestrial human race. I think I have told you about it some month before. Very interesting instrument. To be placed with ist direction to SW, just keep your hands inside at the middle or from both sides at the end and then go into meditation!

They will contact you. This race of strange humans is living fare away on a planet similar to our earth, but more or less like north africa, a desert, the planet is in the star constellation of the eagle in the south-west hemisphere.

They are very much interested in contact with aliens like me and you. They have a high developed technic of using such instruments with really high teck cristals inside to contact other aliens over mind power.

Ring of Fire - instrument for collecting and using positive cristal energy, constructions always the same way, but because of the stones always different. Every Ring of Fire becomes a nest (bed) for devas. They like it so much, and they will take care for you house. While changing the stones you are disturbing them, and you can feel the energy will become worst. So, just talk with them and ask them to stay and take care for your householding and for positive energy in your living rooms. You may place one in your bed room to build up your your special energy for your wife and you, just feeling good and with shelter against all strange influences. Prices depend on value of cristals, new pieces are always with gold galvanisation, -

Special healing extensor for working with 2 people or in a group with energies. Place one person at each end of it, keeping to the left two arms beside the antenna, and on the right side 1 arm in between the antenna, so energy will floate between the 2 people. The one at the right side can send his energy to the other one for healing. While changing the position of the cristall ball or exchange it against other cristals you are changing the quality it the energy which is transmitted. Nearly 2 yards long!

1. **Swinging circle** to make vibrations of cristal balls stronger, to have more power from cristal balls in your home. About 1 feet in diameter,

2. **Accelerator for sending vibrations of cristal balls**

3. **Cepter with pyramid** of rock cristal for healing and for getting free from negative influences, different types, pyramid from rock cristal, balls from rose rock etc. Can be used as a rod for searching energies and water etc. New types only incl. 2x galvanisation with nickel + gold,

4. **Interdimensional door**, very interesting for working with students, if you grip inside behind, there is nothing, but if you grip inside from the front through the door, your hand will be in an other level or dimension of energy. You will get by exchange of the cristal balls different levels for new experiences. All doors with 3 different cristal balls, New types with a bit different construction.

All new types of this kind 3 + 4 are with goldening, because gold surface gives more power to it.
